

# CARTA DE ORACIÓN

Mexico City on September 5, 2023

*Life is beautiful and with Jesus it is full.*

## WORSHIP

We praise our Lord Jesus Christ for his infinite goodness to us, we bless you greatly dear family and we thank God whenever we remember you for God's great love for your lives and for the work you are doing.

*"No one can claim to truly know Christ unless he follows Him with his life" Hans Denck*

## THANKSGIVING

Greetings and beloved blessings, we share that the months of July and August have been vacations for the children and hard work for us. We thank God that in these two months he has taken care of us from assaults and car accidents. Although a little sick Nohemí, But he's much better now, thank God.

During July and August we covered about 2,455 km, we walked sharing the message of salvation in; Chamontoya, Zacatlan, Ecatepec, Tlalpan, Atizapan and of course in Ajusco and Iztapalapa. In this large city that means many hours of traffic, but we thank God who gave us the desire and the doing of his good will.

During these vacations, Nohemí had more invitations to lead praise in some places for evangelistic events and women's breakfasts, as well to share the Word of God.

Our children are doing well and growing.

Alan much better in his university studies and already in his final practice time, thank God.

Isaac, sadly he did not get a place at the university to continue his studies, as I have told you about 221 thousand boys made their application and exam to enter the university and only 10% of them stayed since the places are exaggeratedly few. Isaac is somewhat sad and trying to understand the will of God, he has not given up because his desire is to be a computer systems engineer, unfortunately we do not have the possibility of granting him studies in a private school. But God knows your heart and we know that HE will give you contentment and strengthen you to continue in life.

Abraham and Augusto are learning piano and guitar respectively and with great encouragement to continue studying. Thank God Augusto has stopped having school problems and the bullying has decreased significantly. Thank you for your prayers for him.

God has put people who have been physically or sexually harmed a lot in our path, but what has touched and saddened us the most is that many children suffer from this very thing. On Sunday two weeks ago, a 4-year-old girl arrived with a mega blow to her face and her hand was clearly marked on her face. When I tried to talk to the mother, they left the Sunday service early.

For this semester I was invited at the school of ministries to teach two subjects, Acts of the Apostles and Missionary Awareness, the latter fascinates me and I praise God for such a great privilege. In the first group I have 21 students and in the second 94 students. This school is free for the preparation of future servers and pastors in the churches, there are people who travel up to 4 hours. In order to get to classes, there are two days a month, Friday and Saturday, Friday is virtual and Saturday is face-to-face. Thank God they support us with money for gasoline and to be able to commute to school, which represents a lot of challenge for me.

I started writing a book about the first chapters of Genesis, this was a project that I had stopped, but I have started and the idea if God allows it in March 2024. I also shared a devotional with people, who have helped me in the difficult times in my ministerial life, and it has been a great blessing for those who study it.

Mimi and I will make Chiapas-style tamales, (southeast of Mexico) to raise funds to raise money for the rent of the place we rent in Iztapalapa. We hope to raise enough funds on September 17, since we need about 16,000 pesos to end the year in that same place.

We are planning and organizing a break of a few days in our lives for recreation and to relax a little from so much work that we have had without a break for 18 months. We trust in God that he will give us the leaders to take charge of the 2 churches and will provide us to be able to have this time, we trust in him that everything will work out according to his perfect will.

#### PRAYER REQUESTS:

- For the team of leaders that we are training for the ministry.
- For the people who have been joining the churches.
- For strength and wisdom to continue with the work of God to which he has called us.
- Why let us wait on God for his guidance to be able to change our car since the boys have grown a lot and we no longer fit in the car, may God provide us with a minivan or something similar.
- For the church in Iztapalapa to come out ahead in its growth and mature more and more every day so that they can be faithful disciples of Christ.
- For the church in Ajusco so that the leaders give themselves to the maximum in the service in the church and we can delegate more jobs to these brothers.
- For the sale of tamales on September 17. May God provide the necessary resources.
- Especially for Isaac and God's plans for him. May he know what God wants from his life and not be discouraged by not continuing his studies.

Our prayers for you, our gratitude for your love and friendship for our family, God shower you with rich and abundant blessings.

always with love  
Nohemi and Cesar Marin
