

PRAYER LETTER

Mexico City, July 3rd 2023

GRATITUDE

We thank God for his goodness in our lives Thanks to the prayers and support you have done for our family and ministry we have been able to see the wonderful hand of God in each step we take. For this we praise the Lord our God.

TESTIMONY

As we have told you previously, Nohemí shared at the women's convention and it was an experience full of challenge and encouragement. God used her through her message based on Genesis 2:22 and shared the pulpit with another woman from Washington.

We are very grateful to Jesus our God, because Augusto is now in a new school with new classmates. He is emotionally much improved and recovering from past experiences. Praise be to the Lord our God.

Isaac just this week concluded his studies at the superior level and has his certificate to enroll in the university. Of the three exams he took for the three options, the first did not have space, and the 20th of this month he receives his results of the other two. We continue in confidence and faith that God will provide him with a place in university.

And of course Nohemí and everyone are ready to have a break from school and all the work which accompanies it. The summer has arrived.

We finished the recovery course based on the Beatitudes for people with various types of addictions, and I believe in general it went well and was a good challenge both for the participants and for us. We hope to see further results of it down the road.

I created a manual of 12 lessons which we are currently studying, titled "Planted By the Water," I finished a devotional practice of 50 days of prayer, and I am working on the next series of sermons on "The Parables of Jesus." God is good, all the time.

This month I restarted classes in seminary, teaching two subjects: "Acts of the Apostles" and "Missionary Conscience"

Pray for:

- Physical, emotional, and spiritual strength for Nohemi and myself so that we can continue the work our Lord Jesus has entrusted to us
- A place for Isaac in the university, and for God to give us peace in relation to his future
- THANKS TO GOD THAT I HAVE NEW GLASSES
- Thanks to God that Alan graduated with a computer systems engineering degree from university
- For the brothers and sisters who have been training to serve in different ministries in Ajusco and Iztapalapa
- For the opportunity to be able to have a few days of rest and recuperation with the boys, and that God will supply for our needs during that time

We always are grateful to God for your lives, dear brothers and sisters, for all the support you provide in our lives and ministry, knowing that God will supply what is needed according to his riches in glory in Christ Jesus just as he has for us up until now.

With love and gratitude always,

Nohemí and César Marín
